EXECUTIVE SUMMARY

This part of the training WP is aimed at capturing on video at least one of the tutorials described in a previous WP14 deliverable (D14.1) and to provide an online environment linking the slides to the video. This enables learners to navigate through the material by either selecting a preferred slide or skipping forwards and backwards through the video.

**LIST OF FIGURES**  
Fig. 1: Slide presentation and accompanying video ............................................................................ 7
1 INTRODUCTION

One of the external tutorials described in (D14.1) has been captured on video, as well as an internal DIP tutorial. The external tutorial is Net Object Days 2004 held in Erfurt, Germany, on the 24th of September 2004. The internal DIP Training Workshop took place on the 8th January 2005, in Innsbruck, Austria. Both can be accessed from the following public URL:

http://stadium.open.ac.uk/dip/

The following section provides an overview of the interface used to link the slides to the video.

2 ONLINE INTERFACE

Fig. 1 presents the interface used in both online presentations. The software XO Stage (http://cnm.open.ac.uk/projects/xo/) developed by the OU is used to present at the same time the video of the tutorial and the accompanying slides. The presentation can run through automatically (for a kiosk application for example), or the viewer can jump to sections using the scrollable 'slide tray' which is created automatically from a list of section titles and times. Rewind, Play, Pause and Mute buttons are also provided for the convenience of the viewer.
