EXECUTIVE SUMMARY

This part of the training WP is aimed at capturing on video at least one of the tutorials described in a previous WP14 deliverable (D14.1) and to provide an online environment linking the slides to the video. This enables learners to navigate through the material by either selecting a preferred slide or skipping forwards and backwards through the video.

Document Information

IST Project Number	FP6 – 507483	Acronym	DIP

LIST OF FIGURES

Fig. 1: Slide presentation and accompanying video	7
---------------------------------------------------------	---

1 INTRODUCTION

One of the external tutorials described in (D14.1) has been captured on video, as well as an internal DIP tutorial. The external tutorial is **Net Object Days 2004** held in Erfurt, Germany, on the 24th of September 2004. The internal **DIP Training Workshop** took place on the 8th January 2005, in Innsbruck, Austria. Both can be accessed from the following public URL:

<http://stadium.open.ac.uk/dip/>

The following section provides an overview of the interface used to link the slides to the video.

2 ONLINE INTERFACE

Fig. 1 presents the interface used in both online presentations. The software **XO Stage** (<http://cnm.open.ac.uk/projects/xo/>) developed by the OU is used to present at the same time the video of the tutorial and the accompanying slides. The presentation can run through automatically (for a kiosk application for example), or the viewer can jump to sections using the scrollable 'slide tray' which is created automatically from a list of section titles and times. Rewind, Play, Pause and Mute buttons are also provided for the convenience of the viewer.
